

Do you have experience of head and neck cancer, either as a patient or carer?

Want to help improve services for people with an incurable diagnosis of head and neck cancer?

This project aims to form a network of people (healthcare professionals, researchers, patients and carers) with experience of head & neck cancer.

This group will make decisions about what areas of research to focus on in the future.

Want to get involved?

We offer:

Expenses for time & travel

Support & training if needed

We'd love to hear from you. Please contact Michelle for further information michelle.lawton2@Liverpool.ac.uk
